PROFILE

Motivated Computer Science undergraduate at SLIIT Northern University with a strong foundation in programming and problem-solving. Skilled in Salesforce development with hands-on experience in Flows, Lightning App Builder, and Apex. Seeking an internship or entry-level Salesforce Developer role to apply skills and grow in the cloud CRM industry.

PROJECTS COMPLETED

-Event Management App – Salesforce Platform

- Built custom objects:
- Designed relationships using Lookup and Master-Detail
- Automated assignments and notifications using Flow
- Applied Validation Rules
- Customized Lightning Pages with Dynamic Forms
- Planned Experience Cloud setup for external users

Salesforce Hospital Management System

- Built a complete Hospital Management System using Salesforce and Agentforce.
- Enabled fast patient data entry and management with Agentforce automation.
- Emergency cases trigger instant email alerts to doctors with patient reports.
- Replaced traditional notebook system with a digital, centralized patient history.
- Doctors can view full medical records, billing, and lab reports in one system.

NO STRESS-PETROL -   HTML, CSS, JavaScript, PHP, MySQL

- Built a web app for petrol delivery and vehicle support during emergencies.
- Designed a responsive UI for mobile and desktop users.
- Developed backend in PHP with MySQL for service requests.
- Enabled location-based service dispatching.
- Aimed to improve convenience and safety for drivers, especially on highways.

MEDI CARE-PLUS -   Java (NetBeans IDE)Java (PHP, MySQL

- Built a patient management system to store patient IDs, doctor details, and medical prescriptions.
- Integrated a MySQL database with Java (NetBeans) and PHP for data handling.

Figma UI/UX Redesign – SLIIT City University Moodle Page

- Fixed design and usability errors on the Moodle page using Figma.
- Created a clean and easy-to-use interface to help students navigate better

Student Management System-   Node.js, Express.js, MongoDB

- Created REST API endpoint to add student records (POST /api/students)
- Integrated with MongoDB using Mongoose for schema-based data modeling
